

REMARKS

This amendment-after-allowance is submitted to correct PTO errors in the title and claim

1.

In particular, the title of the invention should read "Apparatus for Treating Wastes by Gasification", as set forth on page 1 of the original specification and in the original executed Declaration. However, both the Filing Receipt and the Notice of Allowance have the title printed incorrectly.

Also, in the attachment to the Notice of Allowability, the Examiner included an Examiner's amendment of claim 1 by allegedly duplicating original claim 1 in the Examiner's Amendment in order to "[remedy] various scanning artifacts imprinted on the original claim 1 of the specification." However, it is noted that the reproduction of claim 1 by the Examiner on page 2 of the Notice of Allowability contained three errors. In particular, in line 8 of claim 1, "reactor, for receiving" should be --reactor and for gasifying--; in line 9 of claim 1, the word --form-- was misspelled as "from"; and in line 14 of claim 1 the phrase --from the CO₂-- was misprinted as "from CO₂".

Accordingly, an amendment to claim 1 is submitted herewith to correct the above errors introduced upon reproducing claim 1 in the Examiner's Amendment.

It is respectfully requested that this amendment be entered as being necessitated by errors introduced by the PTO.

Respectfully submitted,

Hiroyuki FUJIMURA et al.
